

PESACH TABOO

Instructions:

1. **Setup:**

- Divide players into teams of two or more.
- Set up the game by placing the Taboo cards in a stack.

2. **Gameplay:**

- Each turn, a player from one team draws a card and tries to get their teammates to guess the word written on it.
- The player has a limited amount of time (usually 60 seconds) to describe the word without saying any of the "taboo" words listed on the card.
- If the player says a taboo word, an opponent from the other team can sound a "buzzer," and the team forfeits their turn.
- The team scores a point for each word guessed correctly within the time limit.
- Play then passes to the next team, and the process repeats until all cards have been used or a predetermined score is reached.

3. **Winning the Game:**

- The game typically ends when all cards have been used or when one team reaches a predetermined score.
- The team with the highest score at the end of the game wins.
